

MODERN MUSTARD SEED

## What You Get

A founder-led studio that turns your idea into real, shipped software. Here is exactly what working together looks like, from the first free audit to launch and beyond.

*You bring the seed. We build the tree.*

# Welcome

Thank you for considering Modern Mustard Seed. This is a quick look at exactly what working together feels like: how we move from your idea to live software, how you stay in the loop the whole way, and what you can expect from us after launch.

We are a founder-led studio. You work directly with Sarah, not a queue. The promise is simple: real software, shipped, with no jargon and no surprises.

# How we work together

Five calm steps, start to finish.

## 1. Free website audit

- We grade your current site and show you exactly what is costing you customers. No charge, no strings.

## 2. Your proposal

- You get a clear proposal: the scope, the deliverables, and the price, broken into plain buckets. You can read it, ask questions, and sign online when you are ready.

## 3. Sign and start

- You sign on a secure page and pay the deposit. That is the green light. Your project and your private portal are created instantly.

## 4. We build

- You watch progress in your portal in real time: milestones, percent complete, and the current step. You are never left wondering where things stand.

## 5. Launch

- We ship. You pay the remaining balance, and your work goes live. We stay available for what comes next.

# Your client portal

The moment you sign, you get a private portal. It is your home base for the whole project, and it stays yours.

- Live progress: a clear ring and a milestone timeline that marks exactly where we are now.
- Billing in one place: see your deposit and balance, and pay securely whenever you are ready.
- Your signed proposal, downloadable as a PDF anytime.
- Your files and deliverables, ready to grab.
- Upcoming calls and one-tap booking.
- An AI guide that answers your questions any hour of the day.
- A simple way to leave a review when you are happy.

# Transparent pricing

No hidden costs and no guesswork. Every proposal splits cleanly into three buckets so you always know what you are paying and when.

- To start: a deposit that begins the work.
- On delivery: the balance, paid when your work is live.
- Monthly (only if it applies): software or compute to keep things running, sized to what you actually use.

You see all of it before you sign. Nothing gets added behind your back.

# What we build

If it runs on software, we can build it. Common work:

- Custom web apps and internal tools tailored to how you actually work.
- AI tools and automation that take the busywork off your plate.
- Marketing sites that load fast, rank, and convert.
- Honest website audits with a clear plan to fix what is broken.

Not sure where to start? That is what the free audit and a quick call are for.

# After launch

Shipping is not the end of the relationship.

- Your portal stays live, with your files, your signed proposal, and your project history.
- We are one message away for changes, questions, and the next build.
- If you loved the work, leaving a quick review helps the next small business find us. It means a great deal.

# Refer and earn

If you know other founders or small businesses who need this, you can earn by sending them our way.

- 50 percent on every product sale you refer, and 10 percent of any build.
- You get a simple dashboard, your own link, and free access to our products so you can speak to them honestly.
- Apply anytime at [modernmustardseed.com/partners](https://modernmustardseed.com/partners).

# Getting started

Two easy ways in:

- Run your free website audit at [modernmustardseed.com/audit](https://modernmustardseed.com/audit).
- Or book a call and we will map it out together.

Reach Sarah directly at [sarah@modernmustardseed.com](mailto:sarah@modernmustardseed.com). We are genuinely glad you are here, and we are rooting for you.
